Global Chaos And Helter Skelter

30 06 2015

(<https://naegeleblog.files.wordpress.com/2009/12/dscf29392.jpg>) By T. D. Naegele (<http://www.naegele.com/attorneys.html#tdn>)[1]

For many Americans, the world seems upside down or topsy-turvy, and headed for unbelievable—if not unprecedented—chaos, calamity and helter skelter. This is true economically, militarily, socially, and in countless other ways. Countries and regions are coming apart at the seams; accepted institutions are attacked; lives are uprooted, or ended in truly savage ways; and little seems sacred or even predictable anymore. Many lives appear to move at light speed, while others barely move at all.[2]

An unfathomable global economic crash is predicted, unlike anything that we have witnessed in our lifetimes.[3] The murderous Russian dictator Vladimir Putin has seized portions of Georgia and Ukraine (including Crimea), and may expand his aggression into Europe.[4] China is flexing its muscles in the Pacific[5]; North Korea continues to be a loose cannon[6]; the Middle East is imploding, with much worse yet to come; and terrorists stalk the world, creating death and destruction.[7] Human trafficking flourishes, while there are problems with adoptions and illegal immigration.[8]

Accepted views of marriage are being rewritten; and divorces occur too often.[9] The inmates are running the asylum. Organized religion is under attack.[10] America's history is challenged for being racist, with attempts being made to rewrite it. Riots have been occurring in American cities, provoked by hoods, thugs and criminals. So-called man-made "global warming" and "climate change" are being pushed worldwide, even though it is clear that our planet has gone through warming and cooling periods for millions of years. Also, other *natural* disasters are occurring.[11]

Americans' trust in business[12], Congress and our elected officials[13], the law and judiciary[14], the police, government in general—and in the future—are shaken each and every day. The old "norms" seem to be gone. Replacing them appears to be anarchy, certainly in the Middle East and Africa, where countries and regions are fragmenting, and order and the value of human lives are in short supply. Those who stay abreast of the news see barbarism in action, which is all too reminiscent of what is portrayed in Hollywood films.

Yet, whether one is a Republican or a Democrat or an Independent or something else—and regardless of one's skin color, ethnicity or religious beliefs—there is hope and plenty of it.[15] We are Americans!
